ASX Limited

Electronic lodgement

Dear Sir / Madam

Please be advised, Tox Free Solutions Limited ("Tox Free") has issued 729,729 fully paid ordinary shares to the vendors of AGR Science and Technology Pty Ltd and Waste Stream Corporation Pty Ltd. The issue price was \$1.85 per share.

The shares have been issued as final settlement for the acquisition of these businesses which occurred on 1 October 2007 and 1 November 2007 respectively. Both businesses are achieving above forecast results and Tox Free is more than satisfied with the performance of the businesses to date.

Half of the shares are subject to 6 month voluntary escrow and the other half to 12 months

The voluntary acceptance of shares demonstrates the vendors' commitment and ongoing belief in Tox Free's future prospects. Furthermore it provides the vendors further incentive to assist in the continued development of the Tox Free group of companies.

Please feel free to contact Ms Raegen Tompkin, Financial Controller, should you require any further information.

Yours faithfully
