
Gorgon LNG Construction Project Waste Management Contract Signed

26 October 2009

ASX limited

On Monday 29 June 2009, Toll Holdings (Toll) announced that it has entered into an agreement with Chevron Australia Pty Ltd (Chevron) to manage the Barrow Island Supply Base and Logistics Services Contract for the Gorgon LNG construction project.

The Barrow Island Supply Base and Logistics Contract also includes the management of waste generated from construction of the LNG plant on Barrow Island.

I am pleased to advise Toll and Tox Free Solutions Limited (Tox Free) have signed a contract for Tox Free to provide waste management services to Toll.

The scope of Tox Free's contract with Toll includes the collection, segregation, consolidation, treatment and disposal of waste generated on Barrow Island.

Tox Free is excited about the opportunity to work with Toll on the Gorgon Project and this is a significant milestone in Tox Free's development.

The Gorgon Project is a joint venture between the Australian subsidiaries of Chevron (Operator), ExxonMobil and Shell, to develop the Greater Gorgon gas fields, located between 130km and 200km off the north-west coast of Western Australia. The Greater Gorgon gas fields contain resources of about 40 trillion cubic feet of gas, Australia's largest-known gas resource

The opportunities for Tox Free moving forward are extremely positive and securing this contract will assist in positioning Tox Free as a leading national provider of integrated industrial and waste management services.

Yours faithfully

STEVE GOSTLOW
Managing Director
